

Emilja Beneja | Toronto, ON, Canada

emiljabeneja11@gmail.com | <https://emiljab.github.io/> | <https://www.linkedin.com/in/emilja-beneja-9526a922b/>

Focused on data-driven systems and artificial intelligence, with a strong interest in turning data into practical insights and solutions. Passionate about machine learning, analytics, and building tools that improve decision-making and efficiency across different domains

CORE SKILLS

- Programming: R, Python, SQL/MySQL, Java, JavaScript, C#/.NET, Linux fundamentals
- AI/ML: Machine learning, deep learning, regression, NLP, image processing, audio processing
- Data: Data preprocessing, data analysis, validation, warehousing concepts, ETL concepts
- Visualization: Power BI, Tableau
- Workflow Tools: GitHub, Jira, Asana, GanttPro, Miro, Visio, Lucidchart, MS tools
- Business Analysis: requirements gathering, process mapping, stakeholder communication
- Health Informatics: Clinical workflows, interoperability, healthcare data standards and privacy
- Soft Skills: Communication, teamwork, analytical thinking, adaptability, documentation

EDUCATION

Ontario Graduate Certificate, Health Informatics

George Brown Polytechnic, Toronto | 09/2025 – 08/2026 | GPA: 3.9/4.00

Ontario Graduate Certificate, Applied AI Solutions Development

George Brown Polytechnic, Toronto | 09/2024 – 08/2025 | GPA: 3.9/4.00

Bachelor of Engineering, Computer Engineering

Epoka University, Tirana, Albania | 10/2021 – 07/2024 | GPA: 3.32/4.00

CERTIFICATIONS

- IBM Enterprise Design Thinking Practitioner
- Cisco Certified Network Associate (CCNA)

WORK EXPERIENCE

AI Researcher & Developer | Eunoia Praxis, Toronto, Canada | 05/2026 – Present

- Architect and implement AI-powered tools to improve clinical process efficiency
- Explore and prototype AI use cases through ongoing healthcare-focused research
- Build and maintain applications supporting AI solutions, including frontend, backend, and API integrations
- Ensure strong standards for data privacy, security, and regulatory compliance

Customer Service Beauty Advisor | Shoppers Drug Mart, Toronto, Canada | 03/2025 – Present

- Assist customers with product selection and recommendations
- Process POS transactions and support store operations
- Gather and communicate customer feedback to improve service quality

AI/ML Engineering Intern | Kinectrics, Toronto, Canada | 05/2025 – 08/2025

- Contributed to ROS-based autonomous robot for mapping and inspection
- Managed tasks, scope, and timelines within a cross-functional team
- Developed AI agent and Supported computer vision modules for robot control using sensor data and NLP interfaces

Teaching Assistant | Code for Albania, Tirana, Albania | 07/2023 – 07/2024

- Mentored students in Python, React Native, and UX design
- Delivered lessons, assignments, and technical workshops
- Supported classroom coordination and team activities

IT Support Specialist (Internship) | Balfin Group, Tirana, Albania | 09/2023 – 12/2023

- Maintained databases using Dynamics NAV and MySQL
- Supported clients with data operations and troubleshooting
- Assisted in system performance improvements and user training
